

Universal Design Recommendations for Accessible Washrooms

- Signage utilizes standardized symbols, raised lettering and Braille.
- Automatic open door or screen wall in place of entry door.
- Floor surface is stable, firm and non-slip.
- Sink and counter at recommended height with adequate space and safety.
- Mirror, coat hook in stalls and other amenities at recommended heights and locations.
- Hand dryers at convenient location and recommended heights or variable heights.
- Automated fixtures and plumbing, or easy operating.
- Provide grab bars at appropriate height and locations.
- Install an emergency call button.
- Toilet paper dispenser at appropriate height and location.
- Toilets are a tank style or back support is provided.
- Toilet flushing mechanisms are within easy reach.
- Urinals are recommended heights or variable heights without a step.
- Urinals are color contrasting with wall surface.
- Adult change table that is height adjustable.
- Provide a hoist system to lift a person.

Washroom Accessory Operating Height
