

## EDUCATION PRIORITIES - ONTARIO

The Rick Hansen Foundation School Program (RHFSP) offers educators free resources to help students (grades K-12) learn more about improving accessibility and inclusion in their schools and communities. These comprehensive materials correspond to curriculum and education priorities in Ontario.

## EDUCATION POLICIES: ONTARIO

The Rick Hansen Foundation School Program supports key Ontario education priorities.

- **The Safe and Accepting Schools Initiative** is a bullying prevention and intervention plan that seeks to resolve and prevent bullying in schools by having all students feel safe, included and engaged in schools. The Rick Hansen Foundation School Program (RHFSP) can support the implementation of the strategy by fostering safe and inclusive school cultures that reduce the risk of bullying, and support **Ontario's Well-Being Strategy for Education**.
- As outlined in **Bill 13, Accepting Schools Act, 2012**, building equity and inclusion is a significant priority for Ontario schools. RHFSP gives schools tangible resources to help meet the requirements of the Act by developing positive school climates that are inclusive and accepting.
- RHFSP is the perfect tool to support **Ontario's Equity and Inclusive Education (EIE) Strategy**, which requires schools to implement equity and inclusive education programs. RHFSP helps schools embrace diversity and move beyond tolerance to acceptance and respect, thereby supporting the Ministry of Education's goal of making Ontario's education system the most inclusive in the world. As the EIE Strategy confirms "students who feel welcome and accepted in their schools are more likely to succeed academically." RHFSP is therefore also a means to meet the Ministry's goal of raising achievement results overall and closing achievement gaps.
- Ontario's **Character Development Initiative**, as outlined in **Finding Common Ground: Character Development in Ontario Schools, K-12**, is aimed at holistic personal development of students, as individuals, as learners and as active citizens. RHFSP supports this initiative with materials that teach students about diversity and inclusion and foster school and community engagement.
- As described in the **Great to Excellent: Launching the Next Stage of Ontario's Education Agenda** paper released in January 2013, developing the 6 C's of Student, Society Well Being (**character, citizenship, critical thinking and problem solving, collaboration, communication and creativity and imagination**) is a key focus for the Ministry of Education in Ontario. RHFSP helps students to develop all of these skills.
- The **Accessibility for Ontarians with Disabilities Act (AODA)** mandates accessibility awareness training of all professionals, including teachers. RHFSP resources on accessibility and inclusion, in particular the *Abilities In Motion* toolkit, can provide an excellent framework to support the implementation of the AODA in schools. RHFSP also supports AODA initiatives such as the Ontario Ministry of Education's **The TeachAble Project**, which raises young people's awareness of the barriers people with physical disabilities face and the importance of accessibility. RHFSP aims to generate this same awareness as well as develop students' skills and beliefs that they can be agents for change and contribute to greater cultures of inclusion in their schools and in broader society.

- **Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools, Policy and Program Requirements, K – Grade 12 (2013)** supersedes the Choices Into Action program and includes a new framework for having students become confident, independent and effective planners in their academic and personal lives. RHFSP supports this framework by providing materials that instill knowledge and skills for planning as well as encourage students to explore opportunities for being more engaged in their school and local community. For example:
  - The *Difference Maker Program* is an excellent resource to help K-Grade 6 students to identify various ways they as individuals can be difference makers in their homes, their schools, and their communities.
  - The two secondary units, *Personal Leadership* and *Difference Maker*, provide students with the opportunity to explore strengths, interests, and unique leadership capabilities, which supports the **Individual Pathways Plan (IPP)** for Grades 7-12. The *Difference Maker* unit also focuses on planning and goal setting for community involvement, an aim for Grade 8 and 9 students.
  - Pathways to Success emphasizes the importance of **school-wide learning opportunities**. RHFSP's *Abilities In Motion* and *Difference Maker* resources include interactive and memorable learning experiences that promote cross-grade connections and dialogue on shared learning.
- RHFSP supports **Achieving Excellence-A Renewed Vision for Education in Ontario (2014)** by building on three of the four renewed goals; Achieving Excellence, Insuring Equity, and Promoting Well-Being. Our vision is to remove barriers that impede student achievement by educating about equity, inclusion, and access. RHFSP uses project-based learning to teach students to think critically and creatively, and to make discoveries through inquiry, reflection, exploration, and experimentation. *Difference Maker* and *Abilities in Motion* toolkits help students to value diversity, and to develop respect, empathy, and compassion.

## Ontario Curriculum Links

- **The Health and Physical Education Grades K-8** curriculum aims to equip students with the personal and interpersonal skills needed to lead healthy lives and make healthy decisions. RHFSP offers lessons on healthy friendships, support networks, and teamwork. Our *Abilities In Motion* toolkit helps to cultivate important skills for healthy living, such as critical and creative thinking skills and movement competence, through interactive, physical activities that teach students about disabilities, accessibility, and inclusion.
- The **Social Studies Grades K-6** curriculum consists of two major strands of learning: Heritage and Identity, and People and Environments. RHFSP supports this curriculum's Overall Expectation that students develop an awareness of how significant Canadians have shaped Canadian society as well as the global community, by introducing them to the story of a Canadian hero. RHFSP lessons on Rick Hansen's Man In Motion World Tour also support the Geography Overall Expectations by developing students' spatial skills through fun and engaging map activities and projects. Many of RHFSP's resources support the Citizenship Education Framework used in the Social Studies curriculum. The Difference Maker toolkit especially brings to life how students can become difference makers and stewards of positive change in their homes, schools, and communities.
- **Science Grades K-8** provides curriculum aiming to develop skills, strategies, and habits of the mind required for scientific inquiry. RHFSP supports these aims through lessons on Seasons (Grade 1), Structures and Movement (Grade 3), Body Systems (Grade 5), and Weather (Grade 8).
- **Canadian and World Studies, Civics Grade 10** is a course aimed at teaching students about the rights and responsibilities of citizens, political processes and pathways for becoming involved in public decision making and progress. RHFSP's secondary materials focus on the potential of all people to create positive change in their local environments and in society as a whole. RHFSP's Difference Maker resources especially supports the Overall Expectations that students identify how to take personal action on a civic issue of interest and address it by implementing an action plan. RHFSP's Equity & Inclusion materials helps support the Overall Expectations that students use the political inquiry process to analyze significant civic issues and events.
- RHFSP's secondary *Personal Leadership* and *Difference Maker* resources are excellent resources for secondary courses on leadership, careers, and communication. These units especially support the aims of the following: **2006 Guidance and Career Education's Leadership and Peer Support Course, Grade 11 (GPP30), Presentation and Speaking Skills, Grade 11, Open (EPS30), and Career Studies, Grade 10, Open (GLC20).**

- RHFSP’s Equity and Inclusion secondary school materials includes lessons and activities related to social justice, democracy, and equity. These align with expectations in: **Introduction to Business Studies (BTT10, BTT20), Entrepreneurship, Grade 11 (BDI3C), Marketing, Grade 11 (BMI3C) and Understanding Canadian Law, Grade 11, (CLU3M) and Travel and Tourism (CGG30, accessible travel).**
- **Abilities In Motion (AIM) Secondary** – a new toolkit of resources that raises awareness of disabilities, accessibility, and inclusion to teach key skills such as teamwork, communication, and leadership using innovation, inquiry, and problem-solving. The toolkit includes lessons and hands-on projects in the curriculum areas **of Design and Technology, Science, English Language Arts\Media Literacy, Physical Education, and Social Studies.** Students are presented with lessons, challenges, and projects that require divergent, critical, and creative thinking skills.

The Rick Hansen Foundation School Program (RHFSP) resources can be used to fulfill the mandates of Ontario's Ministry of Education initiatives for Character Education and Safe and Accepting Schools.

RHFSP raises awareness and changes attitudes about accessibility and inclusion, and empowers youth to take action on issues that matter to them. Our free educational materials are user-friendly and incorporate Universal Design principles, are developed by educators for educators, and are connected to provincial curriculum.

Our materials are available in French to support Ontario's Français langue première M à 12 curriculum, and our team includes francophone staff who can assist you.
